Board considers two biosolids items

On June 27, 2012, OCSD's Board of Directors will consider:

1. Recommendation to award Tule Ranch the land application contract as an outcome of OCSD's recent biosolids request for proposal

In This Issue

process
 2. EnerTech's contract performance

The agenda will be available on the Board's [website](#).

Results of third party audit

OCSD has been verified as having an effective Biosolids Management System that produces positive outcomes and is in conformance with the expectations and requirements of the National Biosolids Partnership. No major or minor non-conformances were identified. OCSD will consider the one (1) opportunity suggested for improvement.

"We are especially proud of the several strengths and outcomes identified during the audit, which point to the value of this certification program as well as our staff commitment to getting the most out of the biosolids system. At the end of the day, we are finding ways every day to improve how we do business," says Environmental Compliance Manager Jim Colston.

The audit, performed by DEKRA Certification, Inc., was conducted at OCSD from April 16-19, 2012.

Brochure now available in English and Spanish

The [biosolids brochure](#) for our annual biosolids management program performance report is now available in Spanish.

This is an important tool for communicating to our many internal and external biosolids stakeholders.
