

STATE COLLEGE SEWER CONSTRUCTION

Orange County Sanitation District

CONSTRUCTION ALERT- NIGHT WORK

For more information
call the
**24-hour
Construction Hotline at
(657) 208-7900**

We understand that night work can be an inconvenience. We apologize and appreciate your patience.

The contractor will take all reasonable steps to limit the amount of noise while still conducting the necessary work.

As a reminder, this project is replacing four miles of regional sewer on State College Blvd. from Orangewood Ave. to just south of the 91 freeway in the City of Anaheim.

WHAT: Final Street Restoration

WHEN: Ongoing – April 2020 (intermittently)
7 p.m. - 6 a.m.

**Dates and times are subject to change due to unforeseen operational factors or inclement weather.*

WHERE: Platinum Triangle Area
State College Blvd. from Orangewood Avenue to Howell Avenue

HOW: The sewer installation in the Platinum Triangle area is complete, which means it's time to restore the street to its original condition.

Final restoration requires the road to be prepared for paving, this activity may be noisy and must take place at night to ensure a proper finish.

Once the paving is completed, the road will be striped to reinstall the three travel lanes in each direction. The striping will be a much quieter activity.

City of Anaheim will complete the final paving within the intersection of Orangewood Ave. and State College Blvd. at a later date.

We understand that this may be disruptive but assure you it is the last activity needed to complete this very important project. Once this work is completed, the regional sewer line will be in service for the next 50 years.

**DATE EXTENDED DUE
TO RAIN DELAY**

Thank you for your continued patience and understanding.
