

Fellow Board Members,

The full board will be selecting its' Chairperson at our May 22nd Board meeting. All of the recent past Chairs have served two consecutive terms allowed in the OCSD Board of Directors Rules of Procedure with the approval of a majority of the OCSD Board of Directors.

As you know I have been Chairman since January 2019 because former Chair Sebourn lost his City Council race and I became his successor by serving as the elected Vice-Chairman of the Board. I am honored to be serving as your Chairman and believe together we have worked well together and accomplished many positive policies and solid committee leadership in just a few months this year.

Our committees are engaged, and all have an excellent working relationship with our executive staff and GM. As far back I can remember, our Legislative committee has never been so proactive. I have worked diligently to improve all of our committees and provide new leadership roles for a large majority of our Board Members.

It took me many years since 1988 to master the leadership role you have entrusted me with. I would ask for your support in electing me your Chairman to serve you, your city/agency and our staff as the leader of the OCSD.

Please support John Withers as my Vice Chair. Even though we have only had a few months together our partnership has been most productive and successful. I will continue to dedicate the time necessary to keep the OCSD moving forward and protecting our rate payers and customers.

Thank you for your time and consideration in this matter.

Dave
